

# India Done Different!

## March 2018

Southern India is less visited than the famed cultural cities of the north, but those who choose to travel here are rewarded with lush green landscapes, exotic spice plantations, ancient pilgrimage centers, exploring scenic backwaters by houseboat, and a fascinating blend of age-old dynasties and more recent colonial history.

What do we think is most fascinating about India? The people. More than forgettable monuments and temples, this journey provides ample opportunities to meet fascinating people. During the main program (March 4-12) in Mumbai and Kerala, we'll meet philanthropists, entrepreneurs, royals, farmers, women, kids, and community leaders. We will experience traditional handicrafts and performing arts that are in danger of dying out, and enjoy interactive sessions with artisans and performers. You'll enjoy a variety of transportation methods, stay at fabulous properties, and see all the best sights of Southern India.

To provide a complete India experience, plan to extend your stay to visit Delhi and Varnasi (March 1-4) and/or Udaipur, Jaipur, and Agra (March 12-18).

Be prepared to get up close and personal with the local culture on this extraordinary WOW! Travel Club adventure!
